Bachelor of Science in Computer Science and Engineering *Dhaka, Bangladesh*

Experience

Full-Stack & AI Developer **2024 – Present**
Independent Systems Engineer *Remote*

- Designed and deployed production-grade full-stack SaaS applications and automation systems using Next.js, Node.js, PostgreSQL, and REST APIs with scalable system architecture and maintainable engineering practices.
- Built AI-powered backend systems using Gemini APIs and LLM pipelines, implementing structured prompt workflows, context-aware reasoning, and asynchronous data processing for real-world automation systems.

Frontend Developer (Freelance Project) **2024**
Japan-based Multi-Service Business Client *Remote*

- Developed and delivered a multi-domain enterprise web platform for a Japan-based client integrating restaurant, construction, and consulting services into a unified responsive interface system.

Web Developer (Freelance) **2022 – 2023**
Independent *Remote*

- Built scalable and responsive web interfaces using component-driven architecture, improving usability, performance optimization, and cross-browser compatibility across multiple client projects.

Featured AI & Full-Stack Systems

AiVoyage — AI Travel Planner | *Next.js · Node.js · AI APIs*

- Built AI travel planner using LLM APIs
- Designed constraint-based system

AiVoya2 — AI Travel Planner | *Next.js · Node.js · AI APIs*

- Built AI travel planner using LLM APIs
- Designed constraint-based system

Product Design & Frontend Interfaces

BeanCraft — Coffee UI | Premium coffee UI system
BeanCraft2 — Coffee UI | Premium coffee UI system
